- Projects must be completed by March 31, 2025. "Completed" means ready to be shown

theatrically, on television, through a streaming service or online. Projects can be either commercial or not-for-profit in nature.

- Must have wrapped principal photography and should be able to submit a timeline that outlines final cut and distribution that meets program deadline of March 31, 2025.
- Eligible projects can be live action or animated.
- The applicant can be either the director or a producer.
- The applicant (or, if different, the recipient of funds) must reside in any of the five boroughs of New York City.
- Funded projects must complete an Interim Report and Final Report, both [via Submittable](#), clearly outlining how the NYC Women's Fund was used to complete the project along with sharing information on attendance numbers and public access plans or outcomes.
- Funds must be used to complete the project outlined in the application form. Funds may be allocated as the applicant needs to complete the project. However, funds cannot be used to purchase capital goods (including, but not limited to, computers or equipment).
- Must follow at least one of two criteria: (i) 75% of its total shooting days take place in New York City, or (ii) 75% of its production costs are "qualified production costs."* Funds can be used for any purpose critical to the completion of the project.

*"Qualified production costs" means the below-the-line production costs only to the extent such costs are incurred directly in New York City and are attributable to the use of tangible property or the performance of services within New York City directly and predominantly in the production (including pre-production and post-production) of a qualified film.

Work Samples for Fiction and Documentary Webisodes/Webseries:

Applicants should include two work samples from the project for which they are seeking support:

- One short clip of up to **5 minutes in length**
- One longer sample of up to **40 minutes**, which gives the overall scope and trajectory of the series.

You may provide context for the clips in the metadata field within the application. **For the short clip, do not submit a trailer or sizzle reel.**

Quick Tips for Video Work Samples

- Please do not submit video samples with multiple clips from different projects, “sizzle reels,” or trailers. Titles and credits should not be included in excerpts.
- When editing your video, it is important to ensure your file is formatted correctly so that your video will play across a range of platforms whilst maintaining quality. Therefore it is important to choose the right codec and container for your file.
- A codec is a method for encoding and decoding data and is used for compressing data, particularly video. Choosing the right container can depend on several desired outcomes, file size, playback quality, capabilities for re-editing etc. There are many codecs to choose from but h.264 is the preferred format for its versatility and superior quality.
- A container is typically associated with file format and what is used to “contain” and package the data as compressed by the codec. The container is indicated by a file extension: .mov or .mp4 (MPEG4). There are many codec and container combinations but **h.264 and .mp4 are preferred** as they are supported by a wide range of media players with little loss of quality.
- **Uploading video files can take more time than expected. Do not leave the uploading of your work samples to the last minute.** Once you know what Work Sample excerpts you will be submitting, upload them to the application form. You can always save and close your application form and go back to it at a later date.
