NEW SURREALISM

The New Surrealist style is an extension of the Surrealist movement, which was at its height in the 1920s. Artists working within this style combine imagery in uncanny and unexpected manners.

New Surrealist art is a contemporary artistic movement that revitalizes Surrealism's spirit. It combines traditional painting techniques with innovative concepts, creating dreamlike, irrational, and emotionally resonant works. This genre continues Surrealism's tradition of provoking intellectual and emotional responses, offering fresh perspectives on the intricacies of the human psyche in today's ever-changing world.

WORK SAMPLES

Work samples are a representation of your artistic work created within the last five years (recommended). This is the most important part of your application, as it will be the primary

point of review. Keep in mind the panel reviews a large volume of material in quick succession; therefore, it is very important that you present your work clearly. **This is not a project grant;** therefore you should be submitting work that is completed.

TIP: Panelists generally view more recent work (work created within the last five years) more favorably. However, you are also encouraged to submit work that falls outside the recommended five-year timeline.

WORK SAMPLES: IMAGES

What to Submit

- **Images of diptychs, installations, and multi-part works are accepted.**
- It is strongly recommended that applicants **not** submit a composite image file of multiple works in an effort to increase the amount of work samples submitted (for example: including 4 image files of 4 separate pieces together in a grid format).

EXAMPLE OF SINGLE IMAGE FILE NOT ACCEPTED:

Work Sample #1	Work Sample #2
Work Sample #3	Work Sample #4

Work Sample Descriptions (Images)

RECOMMENDATION: Label each uploaded work sample starting with a number 01 through 10, followed by the title of the work. Number your files in the order you would like them to be reviewed.

Metadata Section in Application: A metadata section will appear on your application form after each work sample has been uploaded. In this section, you will be able to provide the following information:

- **Title**
- **Date of Completion**
- **Materials**
- **Dimensions**
- **Additional information:** Be sure to note whether your work samples represent documentation of a performance, installation, experience, etc

Formatting Tips for Images: When formatting your images, RGB is the recommended color profile for screen viewing. You can use image editing software such as Photoshop, Canva or Preview to edit, resize and format your images.
